(57) **CLAIM**

The ornamental design for modular laboratory cabinet, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of one embodiment of the modular laboratory cabinet according to our new design;
FIG. **2** is a perspective view of another embodiment of the invention, the sole difference residing in the color coordination that is shown;
FIG. **3** is a front elevational view thereof;
FIG. **4** is a rear elevational view thereof;
FIG. **5** is a top plan view thereof;(a bottom plan view is a mirror image of FIG. **5**);
FIG. **6** is a left-hand side elevational view thereof;
FIG. **7** is a right-hand side elevational view thereof;
FIG. **8** is a front elevational view of another embodiment of the invention having two modular units;
FIG. **9** is a rear elevational view thereof;
FIG. **10** is a top plan view thereof;
FIG. **11** is a bottom plan view thereof;
FIG. **12** is a left-hand side elevational view thereof;
FIG. **13** is a right-hand side elevational view thereof;
FIG. **14** is a front elevational view of a further embodiment of the invention having three modular units;
FIG. **15** is a rear elevational view thereof;
FIG. **16** is a top plan view thereof; (a bottom plan view is a mirror image of FIG. **16**);
FIG. **17** is a left-hand side elevational view thereof;
FIG. **18** is a right-hand side elevational view thereof;
FIG. **19** is a front elevational view showing still another embodiment of the invention having four modular units;
FIG. **20** is a rear elevational view thereof;
FIG. **21** is a top plan view thereof; (a bottom plan view thereof is a mirror image of the view shown in FIG. **21**);
FIG. **22** is a left-hand side elevational view thereof; and,
FIG. **23** is a right-hand side elevational view thereof.
The broken lines shown are for illustrative purposes only and form no part of the claimed design.
